6. AOB

6.1. Board issue discussion with Members

6.1.1. Comment was raised on why DotAsia Board Members serve as individuals and not as representatives of their respective organizations. It was explained that this has always been the case since the beginning of the DotAsia initiative, and is included even in DotAsia’s application to ICANN, described on its website, and in alignment of the fiduciary duties of being Board directors.

6.1.2. It was highlighted that maintaining the confidentiality of certain Board matters is important for the good collective decision making process, and that it is the Board’s duty to consider matters and make recommendations to the Members where appropriate. It was further noted that a set of Board confidentiality guidelines were already put in place in 2008.

6.1.3. A comment was raised that the DotAsia M&A states that 8 Directors of the DotAsia Board shall be elected by the Sponsor Members, and should not be changed. It was clarified that none of the rules or interpretation of the rules on that arrangement have changed since the beginning of DotAsia.

6.1.4. It was agreed that further discussion on the matter to be deferred to the next BGC meeting.
