## NETMISSION ACADEMY 2022

Internet Governance Academy for Youth in Asia Pacific

### About NetMission.Asia

NetMission.Asia is a network of passionate youth in the Asia Pacific region dedicated to engage and empower youth on Internet governance discourse with the aim to enhance youth mobility and create an impact in Asia.

Supported by DotAsia Organisation, NetMission.Asia was established in 2009, with students from tertiary institutes and universities recruited every year and for a series of training workshops, the NetMission Academy.

Through the Academy, we develop a network of NetMission ambassadors and alumni, who endeavor to organize their own youth-led initiatives to inspire more youth to be involved in Internet policy. NetMission.Asia provides a platform for young Asians with shared interests on Internet issues to connect, advocate and channel their ideas into global policy dialogue.

### Who are we looking for?

We are looking for young visionaries who want to make a change for the betterment of the Internet and our community. Full-time students currently enrolled in any tertiary institutions within the Asia Pacific of all disciplines are welcome.
